

ACCESSIBILITY

I want all website visitors, including persons with disabilities, to be able to access information about my business through my website or by other means.

The following links may provide helpful information for optimizing your computer and browser to make it easier to see web pages and to have web pages read out loud to you:

[Increase Text Size](#)

[Magnify your screen](#)

[Change background and text colors](#)

[Make your mouse pointer more visible](#)

[Use your computer to read web pages out loud](#)

If you have any trouble reading, hearing or using information on our website email me at sasha@struthers.legal. I'll be happy to provide that information through other means.
